Summary

MFE candidate at UC Berkeley Haas with a background in econometrics, NLP, and financial modeling. CFA Level 1. Focused on fixed income, EM macro, and quantitative research.

Education

MFE	University of California, Berkeley - Haas School of Business , Financial Engineering Coursework: Derivatives, Fixed Income, Stochastic Calculus, Machine Learning for Finance	Berkeley, CA Mar 2026 – Mar 2027
BA	University of California, Berkeley , Economics (High Honors) and Data Science - GPA: 3.84/4.00 - Economics High Honors (~20 students out of 800, ~2.5%)	Berkeley, CA Aug 2021 – Dec 2025

Experience

FINVIA Multi-Family Office , MFE Industry Project - NLP Investment Research Building investment signal pipeline over SEC EDGAR 10-K filings: Loughran-McDonald to FinBERT sentiment, transformer NER, relation/event extraction, BERTopic, LLM structured extraction, fine-tuned FinBERT classifier	San Francisco Bay Area, CA June 2026 – present 1 month
Franklin Templeton , MFE Industry Project - Municipal Bonds - Built LASSO muni credit spread model (spline maturity curves, call optionality features) date-grouped cross-validated over OLS/Ridge/ElasticNet/Huber: test MAE=15bps on 3,219 unseen trades, R2=0.52 - Layered peer-group residual-correction with lagged residuals: MAE=18.4bps to 16.6bps on 556 recent trades; found ~11% RMSE improvement in calm but not volatile regimes - Designed KNN coverage scorer to flag model confidence (Good/Medium/Weak) for \$45B portfolio	San Francisco Bay Area, CA Mar 2026 – May 2026 3 months
CheckRx , Data Engineering Intern - Healthcare Data Infrastructure - Constructed database mapping 9,539 providers to plans from fragmented data via Selenium scraping pipeline with anti-bot detection, powering \$8.88M valued Medicare AI platform; saved \$25,000 in data processing fees - Deployed FastAPI serving real-time Medicare benefits and CMS star ratings across 5,666 plans via bulk endpoints	San Diego, CA June 2025 – Aug 2025 3 months
CIMB Niaga , Summer Analyst - Corporate Banking Credit Performed fundamental analysis for \$2.9B food client by automating projection model (debt ratio calculations, cash-flows, scenario stress-testing); led \$30M loan approval past risk committee, saved 250 hours/year for desk	Jakarta, Indonesia June 2024 – Aug 2024 3 months

Publications

Firm Financial Performance and Organizational Culture under Environmental Volatility Jonathan Hartadi, Jennifer Chatman, Michele Gelfand (Academy of Management Discoveries (Peer-Reviewed))	2026
Policy Shocks: Stock Market Response of Indonesia's Nickel Export Ban Jonathan Hartadi (UC Berkeley Economics Honors Thesis)	2025

Research

AMD Publication Detail

Ran OLS/SEM on 1,113 firms using NLP-scored culture variables from 1.82M Glassdoor reviews. Identified results-oriented culture as strongest predictor of financial performance ($\beta=0.022$, Tobin's Q $R^2=0.63$).

Honors Thesis Detail

2-stage event study on 15 firms against JCI Index. Producer equities underperformed control by 55pp ($p<0.01$). Consumer impact negligible and statistically insignificant. Cross-sectional OLS on CAR with adj. $R^2=0.56$.

Projects

Systematic Portfolio Backtester

Ridge regression ($\alpha=1.0$) on 9.4M observations with 20 features to predict 90-day equity returns. Capped-proportional allocation across top 15 stocks (10% cap). Trained 2015-2020, tested 2021-2025.

Skills

Programming: Python, SQL, R, MATLAB

ML & NLP: scikit-learn, statsmodels, gensim, spaCy, FinBERT, GloVe, BERTopic

Finance: Bloomberg Terminal, Fixed Income, Credit Analysis, Event Studies, Portfolio Backtesting

Certifications: CFA Level 1

Languages

Native: Indonesian, Javanese

Fluent: Malay, English
